My job as a teacher is:

to treat you with dignity and respect at all times

to make learning fun and interesting while giving you the knowledge you need to be successful

to use materials and teaching styles that are appropriate for everyone’s different learning strengths

to treat you all as individuals in the way that best fits your unique needs

Your job as a student is:

to treat me with dignity and respect like I do for you

to always do your best

to let me know when there’s something I can do to help you

to treat your classmates with respect and never interfere with their learning experience

words to teach by:

“They may forget what you said, but they will never forget how you made them feel.” -- unknown

“The dream begins with a teacher who believes in you, who tugs and pushes and leads you to the next plateau, sometimes poking you with a sharp stick called truth.” -- Dan Rather

“A teacher's purpose is not to create students in his own image, but to develop students who can create their own image.” -- unknown

“The object of teaching a child is to enable him to get along without his teacher.” -- Elbert Hubbard

I believe that it is my duty as an educator to build a positive relationship with my students and encourage them to do the same with one another. It is also my responsibility to be continuously preparing them for adulthood by assisting them in becoming responsible and respectful people who can function appropriately in society.

I believe that all children are capable of finding a domain of learning that is exciting and interesting for them and that finding this will enable them to enjoy school and have a positive outlook which will enable them to do better in all other areas of school. I believe that true learning encompasses more than a memorization of facts but a true understanding and ownership of the concepts involved.

I believe that as an educator I must do all that I can to prevent problems from occurring in my classroom by creating a community with organized procedures and clear expectations. When a problem does occur I will talk to the child with respect and assist them in thinking about why the problem occurred and what they can do to fix it.
